

# Your practice in the limelight!

Superior Dental Care is offering your practice a chance to shine on the internet with streaming video. Through a special arrangement with One Yellow Spot, an affordable online video clip introducing your practice to prospective patients will be produced for you for placement on the web. An online video clip will allow you to introduce your practice in a non-threatening, stress free way. The clip can be posted directly to your own practice web site as well as other directory sites, such as Chambers of Commerce, Angie's List, and anywhere else you want to stand out and attract more business.

One Yellow Spot takes care of all the details, including using Limelight streaming technology so prospective patients will not have to wait for your images to appear onscreen. This service usually costs \$69 per month, but as a SDC provider you pay only \$49, a 29% discount.

For more information or to get this cutting edge web exposure at this low introductory price, contact a **One Yellow Spot Sales Associate** at **937.853.4018** and get ready to shine!
