

More than just a Pretty Smile

Superior Dental Care also cares about saving you and your patients money on prescriptions. As a participating dentist, you'll receive a RX discount card that can help save 20% to 50% off the regular retail price of your medications at most pharmacies if you don't have prescription coverage. These cards may be used for medical or dental prescriptions and even pet prescriptions when written for a pharmacy! Feel free to give them to your staff and patients to show you care about their total health. It's just another way to say thanks for all the ways you help Superior Dental Care remain a clearly superior dental care plan.
