

ASO ADMINISTRATIVE SERVICES

A cost-effective alternative to fully-funded dental plans

SDC's ASO (Administrative Services Only) offers one of the industry's most streamlined and efficient options for your group's dental benefits. Our proprietary claims payment system and proficient administration ensure your dental plan runs smoothly and effectively, saving your company money!

Efficient enrollment

Once your enrollment information is processed, SDC mails plan materials (including ID cards) directly to your enrolled employees. The enrollment process takes just 4-10 days depending on whether the information is submitted electronically or by paper.

Nationwide network access

With over half a million dental network access points nationwide, your enrolled employees will have access to a participating dentist no matter where they live or travel. Visiting a network dentist can also mean paying less out-of-pocket—a savings of up to 20%!

“

Our expert administration ensures you pay only for the dental services your plan allows, which means no wasted dental dollars on erroneously paid claims!

Easy payment

Rather than paying monthly insurance premiums with actuarial risk factors included, your group simply pays an administration fee per employee and the actual cost of your employees' covered dental claims. For your convenience, funds are electronically transferred to SDC each month—in most cases, no “front-loading” of an account or minimum balance is required!

Complete claims processing

SDC's highly efficient and extremely accurate claims payment system provides significant savings to your company. Your claims are paid quickly and according to your exact specifications, ensuring proper utilization of funds. We manage your dental dollars as you intend...with no surprises on paid claims.

Reliable reporting

SDC's administrative services include a monthly claims payment detail. We also provide utilization reporting and an annual dental plan analysis upon request.

Industry-leading service and support

We provide multiple levels of personal service for you and your employees. SDC's dedicated account support will coordinate and assist with enrollment, billing, plan inquiries and more. We also offer convenient self-service online including website support centers, Superior Direct Connect, SDC Mobile and Find-A-Dentist.
